An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Cunningham on 1-22-2004.

The application has been amended as follows: The amendment made by applicants in the Paper entered under Transmittal of New Application which inserted the parent application data at p. 1 after the title has been canceled.

At p. 1 after the title - - This application is a division of Serial No. 09/446,110 filed 2-14-2000, now US Patent 6,348,474, which was a 371 of PCT/JP98/02877 filed 6-24-1998. - - has been inserted.

Claim 1, 3 lines from the end "," has been changed to - -or- -.

Claim 1, 2 lines from the end ", benzofuranyl, isobenzofuranyl, chromanyl, isochromanyl, benzoxepinyl, cyclopentapyranyl, or furapyranyl" has been canceled.

The reason for deleting the above moieties is that they are already included in "A is an unsaturated heteropolycyclic group having at least one oxygen atom as a heteroatom".

Claim 11 at p.15, line 15 the section starting with "provided that when A" and ending on p. 16, line 5 with "optionally substituted heterocyclic group," has been canceled.

Application/Control Number: 10/047,093

Art Unit: 1625

The reason for this is that this subject matter is not within the scope of the amended claim.

Also note that before the recitation of claim 1 the term "(proposed)" should read -- (newly amended)--.
